NEXCARE LLP

Healthcare Consulting Solutions

About Us.

Introduction

We are a multidisciplinary healthcare consultancy team committed to supporting hospitals and healthcare organizations in achieving excellence in quality, accreditation, patient safety, and operational efficiency. Our strength lies in combining clinical knowledge, healthcare management expertise, accreditation experience, and quality systems to deliver practical, compliant, and sustainable solutions.

With a deep understanding of hospital operations, national accreditation standards, and patient-centric care, we partner with healthcare institutions to strengthen systems, improve outcomes, and build a culture of continuous quality improvement.

Mission & Vision.

MISSION

Our mission is to empower healthcare organizations by delivering end-to-end consultancy in accreditation, quality improvement, business development, and hospital analytics — ensuring patient safety, regulatory compliance, optimized performance, and long-term institutional success.

VISION

To be a trusted healthcare consulting partner enabling hospitals to achieve excellence in quality, compliance, operational efficiency, and sustainable growth through globally aligned standards and data-driven solutions.

SERVICES

NABH ACCREDITATION CONSULTANCY

Overview

National Accreditation Board for Hospitals & Healthcare Providers (NABH) accreditation demonstrates a hospital's commitment to patient safety, quality of care, and continuous improvement. We provide end-to-end NABH consultancy, aligned with the latest NABH standards and assessment methodologies.

What We Deliver?

- Gap analysis against NABH standards
- Documentation support (policies, SOPs, manuals, registers)
- Patient safety & quality indicator implementation
- Staff training & competency development
- Internal audits and mock assessments
- Final assessment readiness and handholding

Coverage

- Entry Level NABH
- Progressive Level & Full NABH Accreditation
- NABH Nursing Excellence & Specialty Programs

ISO CERTIFICATION CONSULTANCY

Overview

International Organization for Standardization (ISO) certification enhances process consistency, risk management, and operational efficiency across hospital departments.

Our Approach

- Process mapping & standardization
- Risk identification & mitigation planning
- ISO-compliant documentation
- Internal audit & management review support
- Certification audit coordination

SERVICES

HOSPITAL BUSINESS DEVELOPMENT CONSULTANCY

Overview

We support hospitals in achieving sustainable growth, market positioning, and service line expansion through structured business development strategies.

Focus Areas

- Hospital market & feasibility studies
- Service line profitability analysis
- OPD, IPD, and specialty growth strategies
- Branding, referral & doctor engagement models
- Medical tourism & corporate tie-ups
- Revenue cycle optimization

Outcome

Improved patient volumes, brand visibility, and financial performance without compromising quality or ethics.

HOSPITAL DATA ANALYTICS & DECISION SUPPORT

Overview

Our data analytics services transform raw hospital data into actionable insights, enabling leadership to make evidence-based strategic and operational decisions.

Analytics Domains

- Clinical quality indicators
- NABH & statutory compliance dashboards
- OPD/IPD performance metrics
- Bed occupancy & LOS analysis
- Revenue, cost, and profitability tracking
- Manpower productivity & utilization

Tools & Outputs

- Customized MIS dashboards
- Monthly & quarterly performance reports
- Trend analysis & predictive insights
- KPI-based departmental scorecards

SERVICES

HOSPITAL MANAGEMENT CONSULTANCY

Overview

We provide end-to-end hospital management advisory services, from greenfield planning to operational optimization of running hospitals.

Consulting Scope

- Hospital operations & workflow redesign
- HR systems, manpower planning & job descriptions
- SOP development for all departments
- Infection control & patient safety systems
- NABH-aligned governance frameworks
- Cost control & operational efficiency
